CAREER SUMMARY

Software Developer with 2+ years of professional experience building business-critical web applications. Develop payroll, attendance, and reporting tools with Vue and Nuxt, and build web and mobile expense apps with React, React Native, Express, and MongoDB. Experienced in REST API integration, state management, reusable components, and complex business workflows. Open to front-end and back-end developer roles in Manila or remotely.

CORE COMPETENCIES

Responsive Web Development | Reusable UI Components | REST API Integration | State Management | Payroll and Attendance Workflows | Excel and PDF Reporting | Real-Time Data Synchronization | Debugging and Troubleshooting | Cross-Functional Collaboration | Git Workflows

WORK EXPERIENCE

Software Developer **Jun 2024 – Present**

Intelliseven Inc. — Quezon City, Philippines

- Contribute to 10+ HRIS modules covering attendance, daily time records, payroll, scheduling, leave, overtime, reimbursements, deductions and loans, benefits, and employee reporting.
- Develop payroll and attendance workflows for multiple cut-off periods, weekly payroll, overtime, holiday pay, government contributions, night shifts, flexible schedules, and attendance exceptions.
- Build automated Excel and PDF reports for payroll, attendance summaries, daily time records, and bank-related payroll information, reducing manual report preparation.
- Integrate Vue and Nuxt interfaces with REST APIs and real-time attendance and notification updates, including filtering, pagination, and data synchronization.
- Diagnose and resolve state synchronization, date handling, dashboard summary, conditional rendering, payroll display, and responsive layout issues.
- Create reusable components and consistent responsive and dark-mode patterns for dashboards, navigation, forms, tables, and modals.
- Collaborate with backend developers and cross-functional teams to translate business requirements into maintainable features using Git-based workflows.

RELEVANT PROJECTS

Human Resource Information System — *Vue*, *Nuxt*, *Tailwind CSS*, *REST APIs*. Contribute to employee-facing and administrative workflows for attendance, payroll, scheduling, approvals, reporting, and real-time notifications.

Divvy Web — *React*, *TypeScript*, *Redux Toolkit*, *RTK Query*, *Express*, *MongoDB*. Build shared-expense workflows for equal, exact-amount, percentage, weighted, and itemized splits. Validate group membership and calculate currency shares that add up to the expense total.

Divvy Mobile — *React Native*, *Expo*, *Expo Router*, *NativeWind*. Build cross-platform expense-entry and split-preview flows with receipt scanning through Tesseract.js on the backend.

TECHNICAL SKILLS

Languages — JavaScript, TypeScript, HTML5, CSS3

Front End and Mobile — Vue, Nuxt, React, React Native, Expo, Tailwind CSS, NativeWind, shadcn/ui, PrimeReact, Mantine

State and APIs — Redux, Redux Toolkit, RTK Query, REST APIs, HTTP/HTTPS

Backend and Database — Node.js, Express, MongoDB

Development Tools — Git, GitHub, npm, Vite, Visual Studio Code, Postman

EDUCATION

Bachelor of Science in Information Technology — Camarines Sur Polytechnic Colleges | Apr 2019
